Heavy Hail Damage Received Saturday

One of the worst hail storms recorded in this district, struck Saturday afternoon and did damage to about 40 per cent of the crops in the district. While the damage is slight in some places, many farmers report a 100 per cent loss.

Hail as large as hen eggs fell in the Elkton district, totally destroying some crops and making holes in car tops large enough to put a fist through. Numerous windows were broken and other damage done.

The wind was so strong as to blow trees down. One farmer reports that 2,000 feet of lumber was blown a considerable distance.

Reports from Carstairs state that crops there were almost totally destroyed.

Over an inch of moisture was received during the storm and this will do much to aid remaining crops in the district.

Man, Struck By Hail, Is Thrown From Wagon and Has Rib Smashed

Bill Jones, West Didsbury farmer, was hauling a load of logs for a culvert in Westerdale Municipality on Saturday when he was caught in the hail storm. A stone which hit his hand caused pain enough to make Jones drop the lines. Another stone hit him on the head. The frisky horses started to run away and Jones was thrown from the wagon and run over by one wheel. A rib was smashed and other bruises received. Mr. Jones is recuperating at his home.

Local Farmer Fatally Burned

Ben Dick, Victim of Coal Oil and Kitchen Fire Mishap.

Burned from head to ankles Saturday morning when he tried to light his kitchen fire with coal oil, Ben P. A. Dick, Didsbury farmer, died that night at the Holy Cross Hospital, Calgary.

Mrs. Dick, who was dressing in the bedroom, rushed out in time to throw the two children, aged 7 and 4 years, through the window, and then managed to extinguish the flames, so that little damage was done to the house.

Mr. Dick rushed outside, but before the fire was out his clothes, excepting shoes, were burned completely and the body severely injured.

When called, Dr. W. G. Evans rushed Mr. Dick to Calgary where treatment was given, but the stricken man succumbed to his injuries about 10 p.m.

The remains were brought to Didsbury by the Durrer Funeral Home and the funeral was held Tuesday afternoon at New Berghal Church, east of Didsbury, with interment in the Berghal Cemetery. Rev. J. E. Zacharias, of Herbert, Saskatchewan, officiated. The pallbearers were: Messrs. C. P. Reimer, Henry Reddekop, David Reddekop, Frank Loewen, Bill Dick, and Wm. G. Dick.

Earl Archer Loses Foot When Sawing Lumber

While sawing lumber at the home of W. D. Archer, Monday morning, Earl Archer had the misfortune to lose his right foot when he got caught in a buzz saw belt. Starting over to stop the engine Mr. Archer got tangled in the belt and his foot was thrown over onto the fly wheel. The foot was badly torn and at the Didsbury Hospital the same morning had to be amputated.

Former Didsbury Bank Clerk Killed

Harold Fletcher Piete, former accountant at the local branch of the Royal Bank, was killed almost instantly when the boat in which he was riding on Lake Athabasca was struck Thursday afternoon last by an aeroplane as the latter was taking off.

J. F. Warren, pilot of the plane, was taking off in Nymens Bay directly into the sun. Neither he nor his engineer saw the boat. At the inquest the coroner's jury exonerated Warren of all blame.

Harold Piete was 30 years of age. The son of George W. Piete, of Calgary, he was educated at Connaught and C.C.I. schools and for some while was ledger-keeper at the Hillhurst branch of the Royal Bank. For some months during 1930 and 1931 he was on the staff of the Royal Bank here.

Charlie Mortimer and Bill Gillrie report a very successful fishing trip last weekend when they went after the elusive Loch Leven trout. Success was achieved when the boys managed to land a number of beauties ranging as big as four pounds. Much heavier fish were hooked but not landed. As is always the case—the big ones got away.

Heigh Ho! Come To The Fair!

A splendid range of exhibits, children's races, horse races, ball games, a good midway, and with the Boys' Band also in attendance—offers entertainment and fun for young and old when they come to the Didsbury Fair and Exhibition next Wednesday, July 29.

All the committees are working overtime to make this year's show the best in local history. So slip on the old glad rags and come to town for this big event. Apart from the children's races, which always provide plenty of entertainment, the exhibits are well worth seeing, and the Band, comprised entirely of local boys, will provide plenty of good music to keep the day's activities at concert pitch.

Members of the Agricultural Society, with helpers, were on the job Tuesday of this week putting up cattle sheds and getting the booths, etc. at the Fair Grounds into shape. However, much more work needs to be done, and anyone who can turn out on Friday (tomorrow) afternoon and give a helping hand, will surely be welcomed and their effort gratefully appreciated.

Attractive Program of Horse Racing For the Fair

Assurance has been given the local committee handling the horse races at Didsbury Fair next Wednesday that a number of horses will come here following the race meet at Red Deer. This will give local race fans an opportunity of seeing some of the best horses in Central Alberta perform and promises the race program at the Fair to be one of the very best. Ten harness horses are already entered.

Race enthusiasts are asked to come early, as the first race will start at 1 p.m. sharp. It will be the green race or farmers' trot, and will be run in three heats, with no entry fee.

2 P.M. will see the half-mile running race 14 2 and under, 1st heat. Best two out of three heats for a purse of \$15.00, with entrance fee of 50c.

2:20 P.M. will see the first heat of the trot or pace harness race of three heats. Every heat a race, with purse of \$75.00. Entrance fee of 5 per cent of purse added to purse.

2:40 P.M. the first heat of the half-mile open will be run, for a purse of \$80.00, with entrance fee of \$1.00.

The following business men have made it possible to bring you these sports, so turn out early and show your appreciation by supporting the Didsbury Fair: Didsbury Agricultural Society, Rosebud Hotel, American Cafe, Sharp Circuit Shows, Club Lunch, Bright Spot, Imperial Cafe, Russell Bakery, D. M. Sinclair, D. O. Carleton, Caithness Cartage, Henry Goehring, Wm. Gontash and Bill Hartley.

"BUY IN DIDS BURY"

Pictures of Calgary & Sundre Stampedes Showing at Didsbury

Gray Sharp announces that on Friday and Saturday, July 24-25, he will show a number of small pictures that he took of the Sundre Stampede and the Parade at Calgary. He also has a colored reel on the flower stalls and leading buildings of San Francisco.

Mr. Sharp is working on a reel of colored pictures of the King's Ranch near High River and these will be shown at Didsbury in the near future.

Dies Suddenly at Dovercourt

Stricken by sunstroke Tuesday, July 21, Mrs. Perry Thompson, wife of Rev. Perry Thompson of Dovercourt, near Rocky Mountain House, died almost instantly. The daughter of Rev. and Mrs. F. S. Spiese of Didsbury, she was well known in Didsbury and was a very ardent worker in church circles. She was a recent graduate of Mountain View Bible School and her marriage to Rev. Perry Thompson occurred only a year ago. Her loss will be keenly felt and the sympathy of this community goes out to the sorrowing husband and parents.

Remains were brought to Didsbury by Durrer's funeral home. The funeral will be held Saturday afternoon at 2:30 from the M.B.C. Church, Rev. F. Vincent officiating, assisted by Rev. A. S. Caughell.

Breaks Arm When Pole Vaulting

Fred Evans, son of Dr. W. G. and Mrs. Evans, had the misfortune to break an arm at the Cremona Sports last Wednesday. Fred was performing in the pole vaulting competition and slipped when alighting from a jump. The arm is mending very nicely.

BIRTHS

at Didsbury General Hospital

July 17, to Mr. and Mrs. John Folkmann, a daughter.

July 20, to Mr. and Mrs. Fritz Backstrom, a son.

July 21, to Rev. J. J. and Mrs. Kuring, a daughter.

10,000 Brown Trout fry were placed in the Fallen Timber Creek last Thursday morning. The fry were received from the Banff Hatchery and were placed here through the efforts of the local Fish & Game Association.

WEDDINGS

CLARKE—NOAD

One of the most charming weddings of the season was solemnized in the Olds United Church on Tuesday when Miss Sadie Sophia Noad daughter of Mr. and Mrs. A. E. Noad of Olds, became the bride of Mr. Reid Clarke, son of Mr. and Mrs. N. S. Clarke of Didsbury. The Rev. N. W. Whitmore officiated at the ceremony.

To the strains of the Wedding March the bride, dressed in a beautiful white satin gown with veil and carrying a bouquet of pink Butterly roses and fern, entered the church on the arm of her father. The bridesmaid, Miss Margaret Grant, wore a pale green dress with net and Juliet cap to match. The bride's mother wore a white and floral chiffon with picture hat and the bridegroom's mother wore navy blue silk with matching accessories.

The bridegroom's gift to the bride was a neat travelling bag, to the bridesmaid, a beaded evening dress; to the best man, a silver cigarette case and to the organist, Miss P. Oliver, a silver butter dish.

The happy couple will spend their honeymoon travelling by car through Yellowstone Park, along the west coast and returning via British Columbia. They expect to arrive at their new home, outside of Didsbury sometime after September 15th.

Guests at the wedding were Mr. Edmund Noad, Mr. Thomas Noad, Mr. Arthur Noad, Mrs. F. W. Noad, Mr. and Mrs. James Noad and son Donald, Mr. and Mrs. T. H. Noad, Cecil and Doreen Noad, Mr. and Mrs. E. Clarke, Mrs. H. Roach, Miss Eileen Roach and Mrs. C. Leeson—OLDS GAZETTE.

Safety First.

Roger Barrett has placed a tall sign on the inside of the sidewalk at his garage to force traffic to keep off the sidewalk, thus insuring safety for kiddies, and aged people who lack the agility to leap for safety when trucks and cars seek to appropriate the whole terrain.

Drive Them Off The Highways

Some time ago it was predicted that with the advent of the warm summer weather which tempts people to enjoy outdoor life as much as possible the newspapers would carry stories of automobile accidents, recording the deaths of some and injury of a great many more.

The prediction is a safe one and is already being amply fulfilled. Even before the hottest summer months had arrived a number of smashups with their accompanying fatalities and injuries were reported in screaming headlines in the daily press.

Eye witnesses of one accident in one of the prairie provinces report that a couple of men were driving a brand new car along a crowded highway towards one of the cities on a Sunday evening. With the speedometer recording 75 and 80 miles an hour they flashed past scores of cars laden with men, women and children returning from a day at the summer resorts.

As the speeding car tore past other automobiles, some of them travelling at almost equally unreasonable speeds under such traffic conditions, the occupants turned round and waved a derisive "ha, ha", gloating in their ability to "beat the other fellow." The inevitable happened. The driver lost control, or there was a blow out and the two occupants completed their journey to the city in an ambulance, broken limbs and pain-twisted features bearing mute testimony to their agonies. The erstwhile handsome car lay partly on the highway and partly in the ditch wrecked beyond the semblance of a vehicle.

Fortunately in this particular instance the two occupants of the car were the only persons to suffer as a result of their recklessness, but for an hour or more they had jeopardized the lives and limbs of scores, perhaps hundreds of people using the highways in a legitimate and sane manner, including many women and children.

Such recklessness on the highway is nothing less than criminal and those who come to grief as a result of such misuse of the roads and motor vehicles have only themselves to blame. A worse feature, however, is the menace of such wild driving to other people. Even at moderate speeds of 35 and 40 miles an hour the highways are none too safe, but with speed-crazed individuals at the wheel the roads become potential and sometimes actual shambles.

While the police are on the watch for reckless fools and do all they can to protect legitimate users of the highways there are not enough of them on the job to ensure complete protection and it is doubtful if the provinces can afford to employ sufficient patrolemen to furnish immunity from all dangerous pests.

Under such circumstances the only safeguard for reasonable people is to arouse public opinion against criminals of this type to the extent that sane drivers will be willing to report them to the police and appear in court to testify against them. Such complaints, supported by adequate testimony, should inevitably result in cancellations of drivers' licenses, or at least suspension for a considerable period of time.

After all, the sensible driver, who reports the action of crazy drivers who endanger the lives of others is merely carrying out the law of self-preservation and is doing a public service in the interests of his fellow men and women. No one would hesitate to report a wild man running amuck with a knife or an axe, yet a wild man at the wheel of a powerful automobile is a much greater potential danger to the public.

No person should feel a bit squeamish about reporting dangerous violations of the laws of safety or harbor the notion that because he and his family have been safely passed it is none of his business. If two or three drivers report the recklessness of another their testimony should be ample to ensure conviction. If half a dozen or more report a case, the evidence would undoubtedly be regarded as overwhelming.

Not very long ago newspapers reported the organization of a new safety body, the Dominion Automobile Safety Council Inc., with headquarters at Montreal, coupled with the announcement that its chief function is to promote safety measures by educational means designed to cut down the motor car accident toll throughout Canada.

Such an organization can perform a very useful function to society in arousing public opinion and assist in dispelling the comparative apathy with which the general public appears to regard a very important question. The proposal that the co-operation of the driving public to report all cases of wild driving on the highways be sought, might well be recommended.

Such drivers should be driven off the highways.

The discovery of the earliest known written psalm was recently announced. A cuneiform inscription of about 15 B.C. which has puzzled Syria was in reality the earliest known written psalm.

For writing one of the world's best sellers, "Black Beauty", the English woman, Anna Sewell, received only \$100. On a straight royalty basis, it would have returned her upward of \$300,000. 2157

Motor Roads In Britain

Increase In Traffic Is Causing Worry To Authorities

It is said that the British Isles have never been known better than they are today by more of those who inhabit them; and small wonder in view of the means of locomotion available, observes the London correspondent of the New York Sun.

Road traffic has more than doubled in five years. In Great Britain there are 178,000 miles of public highways, of which 43,000 are classified roads. The total number of vehicles using them last year was 2,581,000, as compared with only 873,700 in 1921. One person in every 19 now possesses an automobile. But there are 10,000,000 or more cyclists also using the roads.

According to Hore-Belisha, minister of transport, Britain, in the 20th century, has become the "most densely vehicled" country in the world, having 23 registered motor vehicles to the square mile as compared with seven in the United States. The increase has been so rapid, he contends, that engineers and surveyors have not been able to evolve the means of assuring the free flow of traffic in conditions of method and safety.

In the next five years \$450,000,000 is to be expended on roads, and in that period it is also planned to construct 230 miles of cycle tracks and 750 miles of dual carriageways. Although increased safety for the cyclists will be assured by construction of cycle tracks such as are already widely in use on the continent, many of the cyclists resent the efforts to circumscribe their use of ordinary traffic arteries.

Japanese Zeppelin Service

Japan May Purchase Two Or More German Dirigibles

Japanese sponsors of ambitious plans for a trans-Pacific Zeppelin service found themselves faced with severe obstacles.

It was learned authoritatively, however, that the plans had not been abandoned.

High aviation sources said one group proposes three routes:

1. An airship service between Tokyo and Hsingking, capital of Manchukuo.

2. An airship line connecting Tokyo with Singapore or Batavia, via Shanghai and Hong Kong.

3. An aerial route from Tokyo to San Francisco or Los Angeles, via Honolulu.

All three schemes call for purchase of two or more German Zeppelins. A German dirigible expert and air pilot called in for advice returned to Germany without, so far as could be learned, reaching any agreement with the Japanese interests. The sponsors were informed Germany could not lend Japan any of her zeppelin experts and pilots except for a very limited time.

Long Service Ended

With approximately 140,000 miles behind him, travelled behind a slowly plodding horse, Henry Gingerich of Baden, Ont., has made his last trip as rural mail carrier after 16 years continuous service over a daily 28-mile route. Only twice in that time did he fail to make his round and storms were responsible both times.

FORD GETS DEGREE

Years of work in the manufacturing field, resulted in educational recognition for Henry Ford, when the automobile magnate received an honorary degree of doctor of engineering at Michigan State College at East Lansing.

Skeena River Floods

Church Is Wrecked But Bible Left On Table Is Undamaged

The flood waters of the Skeena river wrecked the interior of the March Memorial church at Usk, situated on the river bank, but left the Bible undamaged on a small table, it was revealed in stories brought out from the recently flooded area.

The church organ was overturned, chairs were scattered about the building and the linen cover over the table on which the Bible stood was muddy.

Another story from Usk concerns three hens that perched in high branches of a tree.

After the water dropped the hens were found under the trees where they had established a community nest in which were found four new-laid eggs.

SELECTED RECIPES

BRAN DROP COOKIES

1 cup shortening
1 cup sugar
2 eggs
3 tablespoons sour milk
1 cup chopped nuts
1 teaspoon salt
 $\frac{1}{2}$ teaspoon soda
1 teaspoon cinnamon
 $\frac{1}{2}$ teaspoon cloves
2 cups Quaker flour
2 cups Quaker Natural Bran

Method: Cream butter, add sugar gradually, the beaten eggs, then milk in which soda has been dissolved and dry ingredients mixed together. Add the nuts broken into quarters. Drop from a teaspoon on buttered baking sheets and bake in moderate oven. Temperature: 350 degrees F.

Star Explosion

Light Reaches Mother Earth After Journey Of 2,000 Years

Old Mother Earth watched from a big seat one of the rarest shows since the universe began—a star explosion that happened long before lehem.

the shepherds saw the star of Beth-

Far off in an outer rim of space—so far that the earth and the sun are next door neighbors by comparison—the star "blew up" some 2,000 or 3,000 years ago.

Civilizations rose and fell, but even light—travelling at 186,300 miles a second—could not give the earth the news of the blast until recently.

Man had suspected for a month that something had happened out there in the Milky Way, for a scientist in Holland had reported that cosmic rays—children of disintegrating matter—had been travelling to earth in greater and greater numbers from that direction.

On the night of June 28th, an amateur astronomer at Delphos, Ohio, L. C. Peltier, peeped through his telescope and saw a bright star that wasn't there the night before.

It was so bright he could see it through the telescope. It lay on the boundary line between two constellations, Cepheus and Lacerta, which are in the northwestern sky at sunset and directly overhead in early morning.

At Yerkes observatory of the University of Chicago, Dr. Otto Struve announced the star had been on astronomers' maps since 1893, and had not gotten any brighter by 1930, when its picture was last snapped.

Yacht To Be Scuttled

Famous Cutter Britannia To Be Sunk In English Channel

The famous royal racing cutter Britannia will be spared the indignity of the shipbreakers' yard and will be scuttled in the English channel.

Official orders for the sinking of the yacht, so closely identified with the late King George, were issued recently. A month ago it was announced the sails and rigging would be sold.

The Britannia was built in 1893 for King Edward VII. when he was Prince of Wales. The famous cutter won 231 first prizes and 129 other awards in 625 races in the course of 43 years of racing.

Legend Came True

Water Filled Pool In Devonshire When King George Died

The age old legend, "And when the pool fills with water . . . ?" came true at North Tawton, Devonshire, when King George V. died. The legend says that when the spring-fed bath pool there fills with water, a member of the royal family will die. The spring filled just before the death of the Prince Consort, Albert, husband of Queen Victoria, and of Queen Victoria herself and the Duke of Clarence, first son of King Edward VII. Three days after King George V. lay dead, the water vanished and cattle are grazing there once more.

At its narrowest part, near the Florida keys, the Gulf Stream is fifty miles wide. Farther north, its width reaches 150 miles.

Warehouses at Calgary, Edmonton, Regina and Winnipeg

Building For All Insect Parasite Investigations Is Located At Belleville

While it may be true that the character or methods of insect parasites may seem despicable, measured by human standards, the fact is that just now in Canada the Entomological Branch of the Dominion Department of Agriculture is hopeful that parasites will help to control some of the most aggravating problems with which the Dominion is presently confronted. So important do the Entomologists regard the parasites that an \$85,000 building has just been built and equipped for the purpose of housing, studying and rearing them in countless numbers. This building stands a little distance back from No. 2 Highway at the eastern entrance to the city of Belleville, Ont. Its modest external appearance might not indicate that it is the most unique and up-to-date building of its kind in the world. It is to be the centre for all insect parasite investigations and work having to do with the natural or biological control of insect pests in the Dominion. The building, in some measure, is the tangible evidence of years of effort on the part of the Dominion Department of Agriculture and the culmination of the thing hoped for by A. B. Baird, Entomologist in Charge of Parasite Investigations under whose immediate charge the new Parasite Laboratory will come.

The present Dominion Entomologist, Dr. Arthur Gibson, has encouraged parasite work since his appointment in 1920, and he is entitled to much of the credit for the advance that has been made since that time.

To be effective, all scientific work must make haste slowly. There is no such word as impetuosity in the lexicon of a scientist. The new parasite laboratory at Belleville is an example of this. While the biological method of control has been recognized, and to some extent applied in Canada for many years, it was not until May, 1923, that the first parasite laboratory was established at St. Thomas, Ontario, for parasite investigations.

In 1925, the parasite operations were moved to Chatham in order to be closer to the centre of the corn borer infestations, which was the counties of Kent and Essex. Gradually the value of the work began to be more widely recognized and with its wider recognition came some expansion and extension, and another move was decided upon, this time to Belleville. In 1929, the site of the present modern parasite laboratory was bought. On the site of two acres was a fine old three storey house with 20 rooms and some useful outbuildings. After a good deal of renovation and the installation of essential equipment Mr. Baird moved from Chatham with his staff, for by this time he had a modest staff. The acquisition of this property marked a definitely progressive step.

Results already attained from the work of the Parasite Laboratory have not only paid for every dollar that has been spent on the work, but what will be spent for years to come. And the work as yet is practically only in its infancy. It has been positively established that the work connected with biological control is a very definite phase of economic entomology, necessitating the development of special technique and equipment. At present there are eleven permanent trained entomologists employed at the Belleville laboratory, the majority of whom have had post graduate training on parasite research, also a number of temporary helpers.

A Peculiar Accident

A horse and an automobile were involved in a peculiar accident at Lindsay, Ont., when the animal swung its head too far to one side as the car was passing in the opposite direction. The handle on the car door speared the horse through the nose and the animal was freed only with much difficulty.

A species of shellfish found in the Indian Ocean produces a low flute-like sound.

Value Of Farm Manure

One Of Most Efficient Means Of Retaining Soil Fertility

Farm manure naturally constitutes a very valuable by-product on the average farm. This, however, is not always evident, judging from the lack of effort made by many farmers in getting it back to the land with the minimum of loss. Returning manure to the soil is one of the most efficient systems of maintaining soil fertility. If given proper care, it contains considerable quantity each of nitrogen, phosphoric acid and potash in forms which readily become available for plant growth. In addition to the actual plant food contributed, manure also adds humus to the soil, improves its water holding capacity and increases very materially the bacterial life.

In order to determine the actual benefit derived from the application of manure in a regular four-year rotation, including oats, barley, clover hay and timothy hay, an experiment was started in 1925 at the Dominion Experimental Station, Kapuskasing, Ontario. One area was manured at the rate of sixteen tons, divided into two applications. One of eight tons being disked in for the barley crop and a second of eight tons given to the timothy meadow as a top dressing. The other area received no manure of any kind. Over a ten-year period the percentage increase for the different crops on the rotation receiving the manure was as follows: oats, 45.4; barley, 43.9; clover hay, 78.5; and timothy hay, 115.1. When the increase in yields of the various crops are valued at market prices, the cash return from the manure applied would be \$1.65 per ton.

Might Solve One Problem

Good Market For Canadian Cattle Seen In Russia

Russian markets for Canadian cattle might provide one solution to the problems facing the western livestock industry, it has been suggested to Hon. W. D. Euler, federal minister of trade and commerce.

In a letter forwarded to the federal minister the suggestion was made by Jack Byers, manager of the Western Stock Growers' Association.

Mr. Byers said if a contract could be reached to provide Russia with a large quantity of cattle during the present year the western ranchers would benefit extensively.

"We have," he stated, "a tremendous surplus of plain steers from the farms and first-class grass cows and heifers from the range country that would certainly suit the trade and could be delivered to the Pacific coast in competition with any country."

Just State Of Mind

Anyone Who Keeps Ideals Will Always Be Young

Youth is a state of mind—it is not a time of life. It is not a matter of ripe cheeks; it is a temper of the will, a quality of the imagination, a vigor. It is a freshness of the deep springs of life.

Nobody grows old by merely living a number of years.

People grow old only by deserting their ideals. Worry, doubt, self-distrust, fear and despair—these are the long long years that bow the head and turn the growing spirit back to dust.

You are as old as your doubt, as young as your faith; as old as your fear, as young as your self-confidence; as old as your despair, as young as your hope.—United Drug Paper.

Italy's Wheat Needs

With the aid of its reserves, Italy's wheat needs will be filled this year even though weather conditions have jeopardized crops. Edmondo Rossini, agriculture minister, declared at a meeting of the permanent wheat committee. Premier Mussolini presided.

Forecast New Type

Changes In Human Skull Will Make Men Different

Changes now going on in the human skull which forecast a new type of man were reported to the American Association for the Advancement of Science at a meeting in Rochester, N.Y. This prediction was made in a study of ear bones described by Thomas Horace Evans, of the Long Island College of Medicine.

"There are already structural differences enough among men," said Evans, "to subdivide the human race now, whatever it may have been in the past. The evolution of man is not a question of his ancestors, but of what human ancestors he has had and to what forms he will give rise.

"It is a mistake to worry about the apes. There are now terrestrial forms of man which have animal forms of cranium, and there are changes now going on which will cause future surprise.

"The ear-bones are signs of these changes. All jaw elements are significant. The cranial changes are plainly evident. A new animal man will be found, and several lines will develop."

Salt Makes Good Roads

Common Salt Makes Surface As Hard As Macadam

Common salt when used in surfacing automobile roads made of a clay-sand-gravel mixture converts its grains into countless tiny robot workmen who labor incessantly at road repairs.

The discovery of this surprising way in which the salt particles move up and down in the road to keep it moist, smooth, tough and dense was made public at Cornell University during the celebration of the semi-centennial of Sigma XI, honorary scientific society.

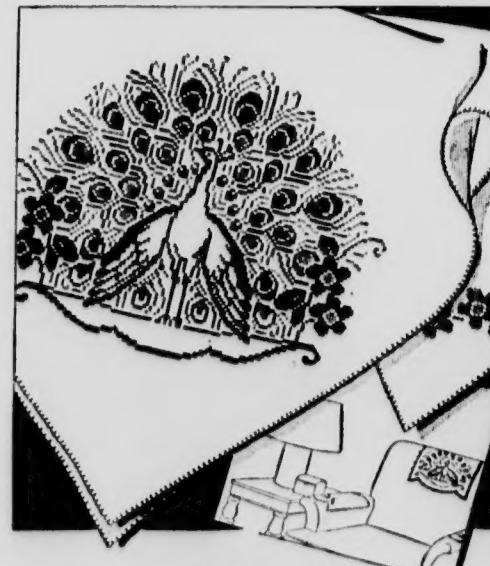

The salt particles convert a mass of clay, sand and gravel into a surface as hard as Macadam. How they accomplish this was a mystery until their workings were studied in the laboratory of Dr. H. Ries, professor of geology.

Rocksalt is mixed with the top three inches or more of road, with at least two pounds of salt to the square yard. The mixture is smoothed and sprinkled enough to dissolve the salt. It is rolled smooth and hard. As the surface dries it "sets" and stays hard. Rains run off without erosion.

Four Pipes A Day

"Four pipes a day—that's what I like, except sometimes I take five." This is the rule for keeping fit observed for most of her life by Madame Rosalie Dequidt of Poperinge, Belgium. She is now aged 100, and alert, quick-witted, and full of high spirits. Her pipe is a business-like affair with a thick stem and a capacious bowl.

A Haughty Peacock in Humble Stitch

Household Arts by Alice Brooks

Gaily Plumaged Bird may Adorn Scarf, Pillow or Chair Set

PATTERN 5587

This peacock's both haughty and humble, for his regal bearing is quite simply realized in a bit of easy cross stitch embroidery. Think what a lot of attention he'll merit, embroidered on a refreshment cloth, chair set, pillow top or scarf! Think what a bit of praise you'll merit, too, for having done this stunning though simple embroidery. Gaily colored floss, please, for his brilliant plumage!

In pattern 5587 you will find a transfer pattern of two motifs $10\frac{1}{2}$ x $13\frac{1}{2}$ inches and two and two reverse motifs $2\frac{1}{2}$ x $5\frac{1}{2}$ inches; material requirements; color suggestions; illustration of all stitches needed.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., Winnipeg.

There is no Alice Brooks pattern book published.

Suez Canal Zone Again Centre Of World Interest As In Ages Long Past

Elmer Goes To Town

Seems That The Man On The Farm Must Go To Urban Centre To Find A Wife

There is no need for any woman, let alone a young woman, to remain an "unclaimed treasure" in Canada, the Dominion bureau of statistics said. There are more than enough men to go round.

There is one drawback. Girls in search of husbands must go back to the farm if they want any great number to choose from and less competition. Elmer and the hired men between the ages of 20 and 25, number 198,000, while Maude and the female of the same age number only 96,000.

Country boys have to start to work early. That is one reason a higher percentage of girls from rural communities get high school and college educations than do boys with the same background. Girls become school teachers and secretaries and when the time comes for Elmer to choose a wife he has to go to town. What with the chores and all, he doesn't get to the city often even if he does own a car. So he often remains unmarried.

If he starts to court in his own locality, he finds most of the girls getting engaged to older men who find girls of their own age scarce and there are sure to be more than two single men in their earlier twenties for every marriageable girl of their own age.

When Elmer goes in his gasoline chariot to call on a "city gal" he is almost bound to run into competition from "city fellas", for men aged 20 to 25 outnumber women of the same age in cities only by 11,000 for the whole country. Also city-bred Bernice will probably be averse to country life.

Farming is reported one of the most difficult of all occupations for a bachelor and 198,000 Elmers are leading lonely bachelor lives. If young women with matrimony in view want to improve their chances, figures indicate they should specialize in milking and take a post graduate course in butter-making and leave typewriting and school teaching to women with other ambitions.

Will Live On Liner

Because he says he cannot "live" ashore on his pension, Major William Long, retired British army officer, will spend the rest of his life on the ocean. He has booked a permanent passage on the P. and O. liner *Barabool*, engaged in the London-Australia service. He has completed his second round voyage on the vessel.

The ancient canal-like Red Sea, centre of world events from Tutankhamen down to Lawrence of Arabia, is again the stage for history-making in the Italian conquest of Ethiopia.

"The tides of history, religion and culture have ebbed and flowed through the Red Sea and the countries along its hot, desert coasts since the earliest times," says the National Geographic Society.

"Mecca, on its eastern border, was the birthplace of Mohammed, founder of the Moslem religion which now counts more than 200,000,000 adherents. To this holy city hundreds of thousands of Mohammedans journey yearly. To the north is the Sinai peninsula, where the Children of Israel wandered on the way to the Promised Land, and Moses received the Ten Commandments.

"To the west is Egypt, seat of one of the oldest cultures in the world, with a history extending back more than 5,000 years; while across the Red Sea in Southern Arabia is the huge Rub al Khali desert, whose past and present alike are practically unknown to the outside world.

"With the building of the Suez canal, the 1,200-mile length of the Red Sea became one of the earth's great commercial highways. British forces, in Egypt on the north and in Aden and British Somaliland on the south, guard it as an essential link of the trade route to India and the Orient.

"Egypt, most important of the Red Sea's hinterlands, is essentially a vast desert through which runs a narrow, fertile strip along the course of the Nile river. Of its 437,840 square miles, only 12,226 are cultivable, but most of this watered area is rich, and irrigation works are enlarging the acreage than can be farmed.

"Egypt borders the Red Sea for more than 550 miles, but has no ports of any importance on this coast. In the Arabian desert, between the coast and the Nile, are several mountain ranges, the highest rising more than 7,000 feet. Oil has been discovered in this desert. West of the Nile the vast Libyan desert, empty save for about 40,000 nomads, extends to the Italian colony of Libya.

"Four-fifths of Egypt's 14,186,898 people are of the ancient Egyptian stock, whose ancestors toiled to build the pyramids. The majority of them are farmers.

"Irrigation from the Nile is building another Dixie in the Soudan, with long staple cotton flourishing under the tropical sun. The Soudan is the home of Kipling's Fuzzy-Wuzzies, of gum arabic, used to gum postage stamps and envelopes, a land of terrific sand storms, and with a sun so bright that railroad car windows are tinted to reduce the glare. Port Soudan and Souakin are the only important ports on the Soudan's hot, dry coast along the Red Sea, extending more than 460 miles from Egypt to Eritrea. They are connected by rail with Khartoum.

Great Orange Eaters

Survey Shows People Of Great Britain Like Fruit

The P. L. A. Monthly says: "In Portugal they grow oranges, and statistically minded people at Lisbon evidently take an interest in what happens to oranges when they are grown. They have compiled a world survey of the subject, and from that survey is extracted the interesting information that the inhabitants of Great Britain are, of all peoples, the most eager for oranges. The occupants of Great Britain eat 20 pounds of them a year per head of population, the people of France and Germany do not manage to reach half that amount, while the Pole absorbs only half a pound of oranges in the course of 12 months."

One edition of a large city newspaper will fill a book bigger than the average 300-page novel.

Special Prizes For Didsbury Fair

For Classes in Prize Book.

Ivan Weber: Best agricultural mare with foal at foot—\$5.00.

Midland Pacific Grain: Grade dry mare or gelding—\$2.00.

United Grain Growers: Agricultural foal—\$2.00.

Federal Grain: Heavy draft dry mare or gelding 4 years and over—\$2.00.

J. V. Berscht: General purpose team, hitched—pair of Headlight Overalls.

T. E. Scott: Four-horse team, hitched—\$5.00 trade.

Johnson & McCloy: Best gent's saddle horse over 14.2—\$2.00 trade.

Nick Nowak: Girl's or boy's pony 13 hands and under—\$1.00.

X L. Motors: Purebred Holstein heifer calf—\$2.00.

Jack Boorman: Grade dairy heifer 2-year-old—\$1.00.

Ray Lantz: Grade dairy heifer 1-year-old—\$1.00.

Royal Bank: Grade heifer calf—Medal.

George Hardy: Grade heifer calf—\$1.00.

Crystal Dairy Ltd.: Engraved cup. This cup to be won three times to become winner's property. Put up this year for grade dairy herd. Following years competition left to the discretion of the Fair Association.

Royal Bank: Grade dairy herd—Medal.

Atlas Lumber: Most number 1st prizes in beef cattle and dual purpose—\$5.00.

Jim Kirby: Most number 1st prizes in beef cattle and dual purpose—\$2.00 trade.

Massey-Harris Company: Grade sow 1-year-old and over—1st \$3.00; 2nd \$2.00.

Moses Good: Grade bacon sow under 6 mos.—\$2.00.

Mt.-View L'stock Shippers Asscn.: Most 1st prizes in hogs—\$5.00.

Roger Barrett: Most 1st prizes in sheep.—Grease job, change of oil and check-up on hydraulic hoist for your car.

E. Gasser: Most 1st prizes in pon'try class.—Change of oil and wash job.

Mrs. C. D. Casey: Best 1936 turkey pullet and young tom—Prize, one of Mrs. Casey's imported 1936 turkey toms.

Mrs. C. D. Casey: Best Rhode Island Red cockerel and pullet.—Prize, March hatched Rhode Island Red cockerel.

British-American Service Station: Most 1st prizes in grains and grasses.—Change of oil.

Pioneer Garage: Most 1st prizes in grains and grasses.—Gas, 6 gallons.

A. G. Studer: Collection of vegetables—\$1.00.

Bawlf Grain: Most 1st prizes in roots and vegetables—\$2.00.

Steve Klejko: Loaf of home-made white bread—10 pounds of beef roast.

Pep Groceria: Roll jelly cake—24 lb Royal Household flour.

Mrs. Reta Fleury: Angel food—Free marcel.

Herman Hawkes: Most 1st prizes in domestic science—100 pounds Flour.

Builders' Hardware: Most 1st prizes in domestic science—Aluminum Kettle.

I.O.D.E.: Most 1st prizes preserves, pickles, and canned vegetables—1st \$3.00; 2nd \$2.00.

H. D. Halliday: Collection of jellies, 4 varieties.—Prize 20 pounds Sugar.

Collection home-made jams, 4 varieties—20 pounds sugar.

Mac's Hardware: Most 1st prizes preserves, pickles, and canned vegetables—Cold Pack canner.

H. W. Chambers: Butter, 3 1/2 lb prints—1/2 dozen Sherbets.

Frank Kaufman: Most 1st prizes in dairy produce—\$2.00 trade.

M. Weber: Most 1st prizes in flowers—1st 7 pound Pancake flour; 2nd 3 1/2 lb pancake flour.

Didsbury Ladies' Shoppe: Collection embroidery, all white, 6 pes.—\$2.50 trade.

Map of Alberta with rivers, lakes, railroads, cities and important towns—\$2.00 trade.

Mrs. Wilson: Most 1st prizes in fancywork—prize, house Dress.

North End Lumber: Home-made bird-house by student any age—1st \$2.50; 2nd \$1.50; 3rd \$1.00.

For Additional Classes

Ranton's Special: Best Holstein milk cow. Engraved silver cup—to become the property of the exhibitor winning it three years.

Central Creameries Ltd., Carstairs: Best dairy female purchased or grade any age; must be raised by exhibitor. Open to Carstairs members only. Engraved silver cup—to become the property of exhibitor winning it three years.

"Blue Ribbon" Tea Biscuit Competition—for 1/2 doz. tea biscuits:

Baked with "Blue Ribbon" Baking Powder. One empty tin or grocer's receipt to accompany each exhibit—1st \$4.00; 2nd \$2.00; 3rd \$1.00.

Sim. Good, Carstairs: Best 1936 foal from the Sim Good Horse—1st \$5.00; 2nd \$3.00.

Allan Gole: Best loaf white bread baked from "Robin Hood" flour—100 pounds Flour.

Jenkins' Groceria: Best loaf white bread baked from "Golden Rule" Groceria Flour—1st 98 pounds flour; 2nd 48 pounds flour; 3rd 24 pounds flour.

H. D. Halliday: Loaf of bread baked from Robin Hood Flour donated by Robin Hood Mills Ltd. through H. D. Halliday. Dealer's sale slip must be attached showing purchase of not less than 49 pound sack within the month of July. Prizes: 1st 98 pounds flour; 2nd 49 pounds flour; 3rd 24 pounds flour.

Alberta Pacific Grain: Best sample of 222 wheat—\$2.00.

Adshead Garage: For the best essay by boy or girl under 16 years from rural district on topic, "Why the Chevrolet Car is the Most Popular Car with the Farmer."—1st \$5.00; 2nd \$2.00.

Items of Interest

Sport:

Competing in the National Rifle Association medal play, C. Noonan shot a bird as it flew across the range, the bullet going on to register a bullseye.

London, Eng.—To encourage Great Britain's boys to play baseball an anonymous donor is prepared to spend \$7,500 on them this season. The game has taken a strong hold here with Canadian and American players starring on various teams.

There is a strange mixture of racial blood in the veins of baseball players in the American League. Sixty-three are Irish or part Irish, 27 are Germans, 15 are of English extraction, and nine are Italians. There are five Poles, four Hebrews, two Frenchmen, three Hollanders, two Scots and one of each of the following nationalities: Welsh, Swedish, Mexican, Norwegian, Austrian and Slovakian.

General

London, Eng.—St. Gabriel's church, Newington Butts has been sold for \$20,000, a wrecking contractor making the purchase to obtain the bricks and other material.

Kingston, Jamaica—Japanese shirts from Hong Kong threaten to put the local industry out of business and throw 1,000 workers out of employment. The government has been asked to take steps to save the industry.

Morris Davis, 25, a senior at West Virginia University, spent the first part of last week writing his own obituary. The manuscript was complete except for the date of his death. His widow Mrs. Violet Stewart Davis, filled in the blank Saturday, after Davis succumbed from a long illness.

Lutheran Mission Festival Sunday, July 26th

St. Paul's Lutheran Church celebrates its annual missions festival on Sunday, July 26, in the grove of Mr. Martin Jacobsen. The German service begins at 11 a.m. and the English service at 2 p.m. The well known speaker of the Lutheran Hour Rev. W. A. Raedeke, of Calgary, will preach both sermons. At noon lunch will be served by the Ladies Aid. A hearty invitation is extended to all.

Melvin Notes.

Mrs. E. Webster, who spent the past six weeks in Michigan, returned home Wednesday. She reports that Alberta people do not know what heat is.

Mrs. Freda Smith, of Calgary, spent a couple of weeks visiting with Mrs. J. Krueger.

Master Lester Krebs spent last week with his sister, Mrs. W. Allen of Edmonton.

Melvin district crops are completely wiped out as a result of last Saturday's hail storm. Almost every west and north window in houses and barns was damaged.

Mrs. Gardner of Eagle Hill was a visitor last week at the home of her daughter, Mrs. R. McNaughton.

Rugby W.I. picnic was held at the Olds College last Thursday. All report having a very pleasant time.

It is reported that two local young ladies claim they walked seven miles to town in a very short time. Jock, ask them about the lift!

Mr. and Mrs. P. Daniels of Calgary are spending part of their holidays with Mrs. Daniels' parents Mr. and Mrs. C. G. Carlson.

Burnside Notes.

Lone Pine Baseball Team is holding a Baseball Tournament and Picnic on August 5. Dance at night with Borbridge Orchestra furnishing the music. There will be three games, including the playoffs. Good prizes will be given. Everyone please come and support the boys.

Mr. and Mrs. George Hergert of Calgary, formerly Mrs. Bittner, spent the last week visiting friends and relatives in the district.

Mr. Jack Clark returned Friday from Arrowood where he has spent the last two months.

Mr. and Mrs. Arlendsen and daughter Connie are attending Summer School in Edmonton.

Lone Pine Baseball team played Torrington Juniors at the Sports at that place last Wednesday and beat them 13 to 6. On Sunday they journeyed to Sunnyslope and with a little hard luck and a few players missing, lost out on score, but had a good game of ball anyway. Last night they played Didsbury team.

Mr. Ronald Dundas of Allingham is holidaying at the coast.

Mrs. Jim Sheils arrived home last week from a six weeks vacation at her old home in Bruce County, Ont.

MORE SOAP AT NO EXTRA COST

• Now a bigger bar in a single carton. The 4 small bars in one carton will no longer be obtainable.

A PRODUCT OF LEVER BROTHERS LIMITED

The Harrow That can Disc up to 100 Acres a Day!

If you farm a large acreage, Oliver WDH Wide Disc Harrows can cut down your costs. With the 32-foot size, you can disc as high as 100 acres a day—and do that immense amount of work thoroughly.

The WDH is built in 14, 15, 16, 21, 24 and 32-foot widths to meet all conditions of soil, crop and power. Each section works independently of the others and that's why the WDH discs uneven ground so well.

If you farm in a big way—with either horses or tractors—you'll want to investigate the profit possibilities of Oliver Wide Disc Harrows carefully. They will do your harrowing up to the full limit of your power and produce a uniformly fine seed bed. Adjustable to any desired depth, you get even, deep discing every foot. Ask for details!

Alberta Crop Report.

From Alberta Department of Agriculture.

EDMONTON, July 17th, 1936.—Extreme drought conditions have continued during the past two weeks in southern and east-central areas, with the result that in the eastern portions of these districts particularly, hope for a harvest of any consequence has been abandoned. That part of the province from the Faber, Medicine Hat line north through the Berry Creek area to Provost, has suffered most intensely, and an almost complete crop failure is accepted by the major portion of this section. Pastures and forage crops in these districts are burned up and shortage of feed is cause of immediate concern. It is still hoped, with the advent of rain, that a portion of the grain crop may yet be salvaged as feed, but the feed situation in any case is likely to be quite serious.

In the more westerly districts from the U. S. boundary north through the Calgary area, the hot dry weather has also taken heavy toll, but with rain at an early date fair crops may yet be harvested in some sections.

In the west central districts and extending for a distance north of Edmonton, only a few slight scattered showers have fallen in the last fortnight. Crops, though as a whole not yet suffering excessively, have utilized all reserve moisture and are heading out short. Yields will be much reduced unless there are general rains at an early date. The continued dry weather is especially hard on the later sown grains, and the hay crop is considerably below average. To the west of Edmonton and to the east, showers have been more general and crops continue to develop favorably.

In all sections of the Peace River country, there has been plenty of rainfall and conditions generally are excellent. An exceptionally good crop is in prospect throughout this district.

Some hail has occurred at points in the central and northern districts, but damage in most cases has not been heavy and is confined to a few small patches.

A vigorous campaign continues to be waged against the grasshopper which is well under control. No very great danger from the grasshoppers is reported from any of the south and eastern districts, where drought conditions are now the problem of major concern.

Livestock on the whole is in good condition, though feed scarcity in the dry areas is likely to be felt before long. There is little change in the cattle market, movement of cattle from dry areas has commenced and shipment of hogs is fairly strong. Sow holdings in central and northern districts are definitely on the increase in anticipation of improved feed conditions. Dairy production has fallen off in the south owing to dry weather, but continues steady elsewhere with cream prices a little stronger.

Reports by correspondents:

Medicine Hat: Prolonged drought has destroyed crops in immediate district. Moderate yield on summer-fallow in vicinity of Cypress Hills and Crowsnest road still hoped for. Stockmen anxious re feed.

Lethbridge-Cardston: Drought situation becoming more serious daily. Shortage of irrigation water reported. Some grains being cut for hay. Liquidation of breeding herds has commenced.

Calgary: All crops suffering from drought and some being cut for feed, that on stubble practically destroyed. Not much pasture left and shortage winter feed certain.

Olds: Rain needed but immediate vicinity and west holding up well. Country to the east suffering from drought.

Red Deer: Conditions very dry; crop short, reduced yield anticipated; pastures burning and hay crop light.

Lacombe: Moisture badly needed; crops on fallow holding fairly well. Pastures burning and hay crop light. Slight hail damage.

Vermilion-Lethbridge: All crops suffering from lack of moisture and prospects for fair yield vanishing.

Edmonton: Only few light scattered showers and crops short.

Grande Prairie: Crop conditions excellent and high yields anticipated. Plenty of moisture.

Good Minimum Price Needed

The setting of a fair minimum price for wheat by the Wheat Board is a matter of primary importance to Western Canada. The Alberta Wheat Pool invites the co-operation of all organized bodies who are interested in seeing this end brought about. It is also important that the Federal Government be impressed with the need for the Wheat Board.

The experience of the 1935-36 crop year shows that the setting of a reasonable minimum price provided a measure of protection for the wheat growers that could not have been obtained in any other way. The Alberta Wheat Pool contends that the losses, if any, entailed are trivial as compared with the advantages gained by providing purchasing power for the farmers of the west. A drive to bring about lower wheat prices was frustrated by the Wheat Pools in co-operation with the Federal Government last year. While the situation has changed and the prospects appear brighter for improved prices this year, it is suggested that the welfare of agriculture needs the steady influence of a substantial minimum price in order to offset the adverse movements which may develop later on.

Golf Notes.

The Golf Club has been successful in securing a nice silver trophy, and play for this will start in the near future. Get busy and have a little practice, as competition will be keen. The greens are in good shape and grass troubles are about over for the season.

The draw for the above trophy is as follows:

Watkin	vs. Kirby
Johnson	vs. Fisher
McKenzie-Grieve	vs. Buhr
Kaufman	vs. Brusso
Reiber	vs. McGhee
Dall	vs. Wordie
Friesen	vs. Julien
Fleury	vs. Ranton
McLeod	vs. McFarquhar

The first-mentioned player will arrange time of play. Matches will be 18 holes, scores to be handed in on separate cards. Handicap will be set from card drawn from hat and deducted from both scores. Handicap set at two-thirds over par from card drawn from hat. All games must be finished by dusk of July 29 or default.

IMPARTIAL AS LIGHT

YOU cannot argue with light. It just shows you things as they are. It plays no favorites. It gives brightness to the things that are already beautiful and it floods revealingly into the dark corners to show the dust and the grime and the hidden ugliness. If you guess at the nature and quality of things that are only half seen, if you see things that are not there, your eyes and your imagination are to blame. You cannot blame the light. For it can only illuminate the aspects that are turned towards it.

NEWS is like light. It sheds a beam on men and events. It lifts the darkness from promotions and policies. It penetrates to hidden things and shows the truth as it is, for all to see.

THE news columns of a good newspaper are impartial. They tell the truth as it is found, they give all the facts that are known. The same news that guides its editorial opinions is there in full to inform your own judgments. It is the chiefest function of a reputable newspaper to bring everything of importance to the people into the daylight of publicity, discouraging vice and corruption and chicanery.

The independent newspapers of Southern Alberta shed the light of truth on the happenings and developments that interest you. Read them, confident in their integrity.

OVER 50 YEARS OF SERVICE

Buckingham
FINE CUT

WORLD HAPPENINGS
BRIEFLY TOLD

Sir Cyril Devereall has been promoted field marshal as a successor to Viscount Allenby.

During the calendar year 1935 Canada exported gold to the United States worth \$99,449,590, of which \$2,565,226 was of foreign origin.

The smallest microbe yet known has been discovered in London sewage, only a few millionths of a millimetre in diameter.

Marsye Hiltz, French aviator, claims the women's altitude record after a flight which she said reached 45,275 feet.

Beginning July 1 public service vehicle drivers in the United Kingdom have been prohibited from speaking to passengers while in motion.

The 10 ships of the Canadian government merchant marine sold some two months ago were disposed of for \$419,926, or \$4.76 per dead-weight ton.

Councillor D. R. Butler of Derby, England, visiting Toronto, expressed his desire to see more British farmers brought to Canada to use "the wealth of the land that is so evident here."

The United States magazine "Asia" was barred from circulating in China by the foreign office which declared the publication contained material unfavorable to the government.

Income tax assessments on Canadians during the year 1929 to 1935 totalled \$4,883,288,993, according to a return tabled in the House of Commons on motion of G. G. McGeer (Lib., Vancouver-Burrard).

The new Dominion parasite laboratory, the only one of its kind in Canada, erected at a cost of \$85,000, was officially opened at Belleville in the presence of many outstanding entomologists of the United States and Canada.

London's Latest Fad

Pictures Made From Butterfly Wings Are All The Rage

London society's latest fad is pictures made almost entirely from butterfly wings. "Suaj," the artist has been buying old collections of these wings. He has completed a portrait of Queen Mary in the new medium. The dress consists of 600 butterflies' wings, all taken from collections date as far back as 1865. A striking portrait of Princess Elizabeth, entirely from butterflies caught in the nineteenth century has been bought by the Duchess of York. Subjects that lend themselves particularly to this type of art are ships, angel fish, period costumes and coats of arms. Some of the costumes require 1,000 wings.

Had Ample Proof

Doubting recent reports that a centipede swallows its young, A. E. Davis and his sons, Jack and Austin, checked up on them when they found one of the insects near Yass, Australia. When they picked it up it had a young centipede half-way down its throat. It swallowed five. The mother was five and one-half inches long and the young ones were an inch long.

Friendship Of A Dog

Many People Consider It A Thing To Be Valued

A teacher in an Eastern city absented herself from her classes a day and a half because of grief over the death of a pet dog. A doctor is quoted as saying that "any teacher who cannot bear up under the sorrow of the death of a dog is in no physical shape to teach school."

People who have dogs, or who have lost them, will not all assent to this view. In many homes the dog is a real "person," a member of the family circle, a friend as well as a pet. Some say that affection should not be lavished upon dumb animals, but the fact is that they inspire affection, and give, in return for it, a grateful faithfulness which human beings do not always exhibit.

It is quite possible that a school teacher, losing one of these friends, would, whatever her physical condition, be incapacitated for her duties. Whether the resulting absence should be at her own or the municipality's expense is another matter altogether. But it is a mistake to suppose that the death of a dog will not seriously affect normal people to whom it has been companion and friend.

Pioneer Navigation

Voyage From England Took Five Months In Early Days

Britain's Cunarder R.M.S. Queen Mary is a long way removed from the "Tweed," the ship by which he first left England's shore affirms Alf. Fisher, 78-year-old pioneer to this country, who celebrated his birthday at Saltcoats, Sask.

Seventy-one years ago—two years before Confederation—Mr. Fisher disembarked at Quebec from the four-masted schooner on June 18. The boat had set sail on January 10, five months and a week before.

During the 71 succeeding years Mr. Fisher has seen a varied life in Canada. A Northwest Rebellion veteran, he saw service in South Africa and enlisted for service in the Great War. He also spent some years with the Mounted Police Force.

Only seven when he crossed the ocean, Mr. Fisher recalls vividly the welcome change in diet which Quebec fruit made after five months of salt pork. His seventh birthday two days after landing was a riot of fun amidst a pile of logs on the old wharf. These things stick in his mind, he says.

Alberta Bird Sanctuary

George Bendick, A Lover Of Birds, Dies At Age Of 79

Known in many parts of Canada as founder of the Bendick bird sanctuary near Edmonton, George Bendick, 79, died at his home in Leduc. Forty-four years ago Mr. Bendick and his wife, who survives, filed on the homestead now noted as the Grath Side game farm where rare birds from many countries are kept. Visitors from all parts of the continent had inspected the farm, one of the show places of the province.

Italians Honored

Dr. Marconi, Inventor Of Wireless, Is Named Rear Admiral

Dr. Guglielmo Marconi, inventor of wireless telegraphy, was named a rear admiral of the Italian navy by Premier Mussolini. Il Duce also appointed Baron Pompeo Aloisi, Italian delegate to the League of Nations, to the rank of rear admiral. Marshal Emilio de Bono, who commanded the first stages of the Italian campaign against Ethiopia, was made a Chevalier of the Grand Cross of the Military Order of Savoy.

Horses Shipped To Scotland

From the stables of well known breeders in Southern Alberta, 52 head of horses, Clydesdales and Percherons, left Calgary for Perth, Scotland. Several prize winners were included in the shipment. The animals brought from \$165 to \$250 a head. Freight and charges to destination amount to around another \$100 a head.

North Dakota's vast wheat fields have suffered more seriously from stem rust than wheat in any other state.

Solar Eclipse Observations

Radio Impulses Are Reflected To Earth By Sun Radiations

Indications that the earth's electrified roof, which, many miles above the surface of the globe, reflects back radio impulses, is formed mostly as a result of ultra-violet sun radiations appeared in preliminary results of the solar eclipse observations.

Prof. Boris Gerasimovich, head of the Soviet eclipse expeditions, said he had been informed that indications of a decisive influence of these radiations in the formation of the electrified roof or ionosphere had been obtained in a quick examination of results. He warned, however, that the information still had to be checked.

Prof. K. Kessenik, head of the Soviet expedition at Tomsk, said a great change was noticed in the behaviour of the ionosphere beginning 15 minutes before the total eclipse, when the audibility of radio signals was sharply increased.

The new star of the constellation Cepheus was seen clearly by astronomers at Ak Bulaik.

Snake Worship In India

Many Families Encourage Reptile To Live In Home

It is strange but true that millions of people in India worship snakes—live snakes of every variety. Not only are there snake groves in every little village, but in some homes the family snake roves about the hearth unmolested. India's Millions gives some authenticated facts:

Here snakes are encouraged to dwell, in order to ensure freedom for the family from many evils and misfortunes—leprosy, and the invasion of the house and garden by harmful snakes. The lack of children is another of the misfortunes entailed by any failure to perform regular worship in honor of the family snakes.

There is a "serpent grove," where the worshipper may repair. Shrines are in the form of a hooded cobra, carved from granite. Sacrifices and elaborate ceremonies attend its installation upon a low platform.

Imperial Conference

To Be Held In London After Coronation Next May

Prime Minister Baldwin announced in the House of Commons, that an Imperial conference would be held in London next May immediately following the coronation of the King.

The coronation will take place May 12 of next year.

A great gathering of political leaders from Canada, the other Dominions and all parts of the Empire is expected in London for the occasion.

The last regular Imperial conference in London was in 1930. An Imperial economic conference was held at Ottawa in 1932.

Used motor oil can now be given in part payment for new, in Germany.

Crocheted Cape A Chic "Topnote"

PATTERN 5360

A summer's night—starlight—and your sheerest frock call for this lacy capelet, which, in turn, calls for crochet hook and bit of white, pastel or black string. You'll love the soft scarf collar that ties so fetchingly 'neath your chin, so hurry—if you'd enjoy this cape all summer! It will do equally well for a neighborly visit or a more formal occasion.

In pattern 5360 you will find complete instructions for making the cape shown; an illustration of it and of all stitches used; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

There is no Alice Brooks pattern book published.

Cuts Spoilage Costs

New Lethal Lamp Valuable To Packers And Bakers

A lethal lamp whose rays kill kitchen germs that spoil food was demonstrated for the first time at a meeting of the American Institute in New York.

The lamp generates its rays by electricity flowing through a gas-filled bulb. It gives little visible light, is not much warmer than the hand, and generates ultra-violet rays which take but a few seconds to destroy germs.

The rays will kill larger pests, too, up to the size of flies, but take a fairly long time. It was announced that no harmful effects are known on human beings, and that these rays cause no sunburn.

The lamps were shown by Dr. Robert F. James and Dr. Harvey C. Rentschler of the Westinghouse Lamp Co.

"High-hung" meat, the table delicacy made by ageing beef until its outside is black, is saved by the rays from half the loss which makes it expensive. This loss is due to germs which necessitate trimming away 30 per cent. of the meat before serving.

Dr. James said that the rays, used in refrigeration, enable packers to use temperatures 10 to 15 degrees higher, due to the sterilization of the air.

He reported that a baking company had cut its spoilage of cakes from about 15 per cent. average to 1 or 2 per cent. by using the rays to sterilize the surface of the cakes. Bread kept in the rays remained fresh for two days instead of one.

House flies die if they remain in the rays several minutes.

Wears Colors For Mourning

Addis Ababa Looks Gay But Cause Is Sorrowful

What is left of Addis Ababa is a city "gay with mourning."

Ordinarily the women of Ethiopia wear only white. Only in case of mourning is color worn—pinks and green being the most common.

Now, owing to the casualties of war and recent disorders, many of the women of Addis are wearing colored dresses beneath their white shawls. Although the cause is sorrowful, the effect is pleasing to the eye.

Many Divorces

All Divorce Applications Came From Quebec This Year

Divorces granted by parliament this session totalled 40, an increase of 10 over last session. Senator Lendrum McMeans (Cons., Winnipeg) told the senate. All the divorce applications had come from Quebec province, he said.

Divorces were granted this session to 11 husbands and 29 wives.

The cotton boll-weevil is preyed upon by 66 different bird enemies.

Great Skill Required

People Who Produce Miniature Marvels Also Have Keen Eye

A new miniature marvel has recently been attracting attention—the world's tiniest steam engine, which is no bigger than a pen nib. The Hungarian who made it, says it runs perfectly. He spent many hours making it out of odd bits of metal and wire, and had to discard numerous parts which were vital fractions out.

This ingenious model is an interesting comparison with what was apparently the previous smallest of all trains. Mr. J. Martin, of Walthamstow, London, made a miniature engine and christened it Silver Jubilee; he added two coaches and a guard's van, and the whole train measured no more than four inches. This remarkable midget was built solely of gold and silver. Its creator, aged 85, inserted mechanism by which the train could travel at a rate equivalent to two and a half miles a year.

For the world's most striking working unit we must turn to Nebraska, United States, where Emanuel Kehm has devised an electric motor capable of some 500 revolutions a second, but which is small enough to rest upon a man's fingernail without overlapping it. Some of the 58 parts of the motor are made of gold, and the whole engine, weighing a quarter of an ounce, depends upon a vital link in the shape of a thin strand of cotton.

Also no larger than a fingernail are the excellent portraits drawn by Mr. A. H. Khasgiwale, of Poona, who presented a drawing to the late King George during Jubilee year. He also made such an etching for King Edward VIII.

To conceive these things an exceptionally keen eye is essential, but even greater skill is required to split a bank-note—which is a thousandth of an inch thick—in two. Yet there was a forgery charge recently against a man who did this, and even passed the two halves off as genuine, nearly getting away with it, too. There has been no other case like it in England.

But there is no doubt that where miniature marvels are concerned, the palm must be handed to Mr. Jules Charboneau. His exhibition of 24,000 miniature objects a few months ago was the fruit of 35 years' collecting and three trips around the world.

He has the Lord's Prayer engraved on a pin head!

To Serve The Prairies

Milk Condensery Being Built At Red Deer, Alberta

Building has been started at Red Deer, Alberta, of the first milk condensery in the Prairie Provinces. The Central Alberta Dairy Pool, Alix, is initiating this enterprise and Hon. W. N. Chant, Minister of Agriculture, turned the first sod. It is expected that the condensery will be ready for operations late in July. While some of the larger dairies have condensed milk for the ice-cream trade, this is the first condensery on the prairies to put up evaporated milk for the household trade.

A Mechanical Watcher

Electric Eyes Can Detect Approach Of Enemy Aircraft

Electric "eyes" capable of "seeing" fifty miles away will keep a look-out for the approach of enemy aircraft in the next war. The mechanical watcher has been invented by a Chicago soldier-chemist, Mr. A. A. Arnhym, who is of German nationality. The "eyes" will pierce fog and smoke screens, it is claimed, and when they sight enemy aircraft they can direct fire on them.

Guarding Beauty Spots

Billboards have been banned from beauty spots by Royal decree in Belgium. It prohibits them from tourist centers, entrances to villages and certain specified districts, and relegates them to 500 yards from roads, canals and railway lines.

Some people are like a fire siren. They make just as much fuss over a little trouble as a big one.

THE PIONEER, DIDSBURY, ALTA

Coleman Hot Plate Cooks with Air!

FLEMING'S FOLLY

—BY—
LAWRENCE A. READING

CHAPTER XVIII.—Continued

His arms were firmly bound behind him. Mell, his usually mask-like face lined with revengeful hate, jostled close. "Yuh low down snake!" he snarled. "I'd've killed yuh, Fleming—I was lookin' for yuh an hour back. But this'll do just as well. Maybe better. Turned bank robber, eh? Well, you ain't gettin' away with it!"

"Where's Stephen?" someone asked. "Out o' town. We better hurry before he gets back!"

The lariat threaded through the iron ring fell and struck the rancher's shoulder. Eager hands seized it and fixed the noose. "Gyp, you tie this to yore saddle. When I give the word—ride!"

Then he saw Gyp Vaille. Link started. His eyes went round and he gasped. For Gyp Vaille, the trouble maker at the dam, he who was Kilgo's henchman, was dressed in a dark checkered shirt and corduroy trousers. Gyp Vaille had been with Berrens in that holdup!

A moment of quiet descended on the throng. Main Street was packed with men in a fifty-yard circle from the pole. Heads kept bobbing up, angry faces bearing the bitter imprint of aroused hate and grim determination to carry this through. There seemed no help, no chance to explain. It must be eleven-thirty or more. At twelve Roper would own the Triple H.

At twelve . . . Link's heart sank. At twelve he would be swinging lifeless from the flagpole.

"All set there?"

Gyp swung a heavy thigh over his saddle. He picked up the reins and gestured for men to move out of his path. The rope stretched from the noose around Fleming's neck to the eye at the pole top, thence to the saddle horn of the tawny roan.

"I'm ready," Vaille growled. "Then string him up!" yelled Kilgo.

"WAIT!"

A lithe, lissome figure burrowed through the crowd. With outflung hands Helen Hamilton snatched the bridle of Vaille's horse and stopped the beast as it took a step forward. Before anyone could prevent her, she plunged to Link's side, twelve feet away. Something gleamed in the sunlight and there was a quick swish of a knife. The rope close above his mass of brown hair snipped and fell on his shoulder.

"He's not guilty!!" the girl cried, and threw herself in front of him. "Men, this is murder—cold-blooded murder! You shan't do this to—"

A curse drowned her last words. Kilgo reached for her arm to jerk her away, but missed. His fist knocked the knife from her hand and sent it spinning into the dust.

Helen backed, against Link spreading her arms protectively. But Roper, his face aflame, grabbed at her. "Get away from there!" he commanded, and tugged roughly. "We're goin' to lynch that lobo and yuh can't stop it!"

She struggled to get free of him. Link, tussling with his bonds, watched in helpless rage. Suddenly there came the sharp sound of cloth tearing. By chance Helen had ripped the Box 50 owner's grey flannel

shirt. Something green was exposed—and Roper, sensing it, put his hands to the spot and glanced down.

Helen uttered a gasp. "Wh-why, it's money!" She shot a swift look at Link.

There was a split second's pause as all eyes fixed on the burly rancher hurriedly stuffing the packet of bills in a brown pigskin wallet back into his torn shirt.

"That's our cattle money!" Fleming roared.

CHAPTER XIX.

If the crowd had been in turmoil before, it was bedlam aroused now. Buzz grunted, his jaw slack. Roper gulped hard, strove to think of something, but, like a small boy caught rifling the jam closet, was nonplussed.

Not so the plucky girl. She spun around and her hand flashed to the man nearest her. A gun glinted, its blue-black barrel catching the sun's rays as she thrust its muzzle hard against Kilgo's stomach.

"You held up Link!" she cried accusingly. "Don't move or I'll kill you!"

The crowd froze. By some quirk of mob psychology it was as if she held a gun pointed at the stomach of every individual present. All eyes held on Buzz Hamilton's sister as with her glossy chestnut hair disheveled, her face white, her chest rising and falling with excitement and the exercise of the tussle, she held them spellbound with the curve of her forefinger over the trigger of the gun.

"That's Link Fleming's wallet! Why, it has his name right on it. Isn't that yours?"

"Yes."

She did not swerve her eyes from Kilgo as she spoke. "Mulrooney, you let Link free. Quickly! Seth Howland, are you in this plot to lynch an innocent man? Can't you believe now that someone held Link up?"

"It was Gyp Vaille—grab him!"

At the Star Loop owner's command Vaille whirled and started to run. Seconds ticked past without a move made to halt him. Then, uttering a guttural curse, Gus, the pink-faced bartender from the Half Moon, whipped out a gun from under his soiled apron. It cracked once and a spurt of dust rose close behind the fleeing man. Again it roared.

Vaille's arms flung up. His below of pain carried back to the stunned throng before the jail as he spun on one heel—and fell.

As if by magic the crowd began slowly to melt away. Uncertainty and puzzlement were on every face. "Yuh mean Vaille stuck Link up, took his steer money, then gave it to Kilgo? But what was Gyp doin' in the bank?"

"Chased there, maybe. I—uh—believe me, gentlemen," Otto Pieper spoke up in a voice that trembled. "I had no knowledge of that—er, miscreant's presence! But it seems Kilgo and his men were searching the town. So Waco Byrne just informed me."

Link, free at last, looked up. Some instinct caused him to turn his head. Helen's hands flew to her throat in a gesture of fear. A pathway widened through the crowd as if by magic. And ten paces away, standing at ease but with his weight evenly distributed on both feet, waiting was . . . Jackpot Mell.

His eyes were brittle and gleaming as the jealous eyes of a wolf. He twitchehd a hand dangling at his side with ominous significance.

"Link," he rasped in harsh, hateful tones, "I'm waitin'!"

Fleming scarcely heard the words.

He was unconscious of the ripple of gasps over the crowd, melting away. A weight made itself known, and looking down he saw in dulled surprise that someone had slipped a forty-five into his holster. Waco Byrne.

He swallowed to ease his throat, suddenly gone parched and dry. Through his brain flashed repetition of the thought he had had these last few days, that never before had he faced an opponent so quick as Jackpot Mell. Seven men had gone to their death at the roar of his flaming gun. Would he be number eight?

Strangely, he felt no fear, but a

ITCHING

TORTURE STOPPED in one minute!

For quick relief from the itching of pimples, blisters, eczema, athlete's foot, rashes and other skin eruptions, apply Dr. Dennis cooling antiseptic liquid D.D.D. Prescription. Its gentle oils soothe the irritated skin. Clear, greaseless and stainless—dries fast. Stops the most intense itching instantly. A 35c trial bottle proves it—money back. Recommended at drug stores for forty years. Ask for it! 19 D.D.D. Prescription

great calmness. And overpowering curiosity as to what was going to happen. Cool, his eyes fixed unwaveringly on Mell's whole six-foot gaunt figure until they became hot, and he blinked. The wait seemed to lengthen into years. In reality it could not have been more than ten seconds.

Jackpot's right hand moved. With the speed of a streak of light the Star Loop owner plunged for his gun. As he fired he knew with chagrin that Mell had drawn first by the margin of a clipped second. He felt a hot, jabbing sensation in his left shoulder, heard his sixgun roar its second time as Jackpot fired again and again. Then staggering from the collision of slug and flesh, Link whirled and fell.

But he was not out. He tightened his hard fingers around the Colt and jerked onto his left elbow. His paining eyes sought desperately to focus on his enemy.

Mell was a mere heap of clothing in the dust.

"Link! Link!" Helen started toward him but suddenly halted, and vivid new fear sprayed across her face.

For Roper Kilgo, his florid countenance deeper crimson than ever before, had been the first man to the side of Jackpot. Now he straightened, and a bull-like roar of fury burst from his fat lips. His hand jabbed for his gun. Whipping it out, he fired.

Wham! The first shot spewed dust into Fleming's face and eyes. All but blinded, he was gripped by red rage at the cowardly tactics. With a great effort he climbed dazedly erect and retreated. Sighting hurriedly, he sent a bullet timed to the nth degree with Kilgo's second shot.

(To Be Continued)

Seeks Fame And Fortune

Chinese Boy Earning Way To Hollywood In Original Manner

Consider the case of Eng Wing Koon, hanger-by-the-pigtail extraordinary, who seeks to make fame and fortune in Hollywood.

Koon is crossing the continent by swinging from his pigtail, dangling in chosen spots, that is, to gather money and pay his way to choice hanging scenes further west.

He learned the art in New York, he told state police at Bloomingdale, N.J., who were so naive as to question his travel technique.

All he needed was a soap box to stand on until he got his pigtail tied to an overhead lamp-post or tree limb, he explained.

He hung by his pigtail for about five minutes in Bloomingdale, then lowered himself to the ground and started passing the hat.

The inquisitive state police took him to the county jail at Boonton and asked their colleagues in New York about him.

"Hold him," came the reply. "We are looking for some Chinese murderers."

But Eng was no murderer. The police contacted his father at 70 Bayard street and learned that Eng, far from being a fugitive, sought the limelight of publicity.

So the police gave him a free night's lodging. He proceeded to pigtail his way to Hollywood.

Aims At Complete Record

A complete pictorial record of every Indian tribe on the continent will soon be undertaken by Winold Reiss, artist and designer of Montreal. Mr. Reiss, an authority on customs and arts of the North American Indian, has spent much of his life studying the tribe of Indians known as the Blood or Piegan of Alberta.

Plans have been submitted for spiral roadways around the Eiffel Tower in Paris to enable automobiles to climb to a restaurant on the second platform, about 400 feet above street level.

2157

A Question Of Luck

Dionne Sisters Have Fortune While Other Children Lack Necessities

Doubtless Dr. Allan Dafoe deserves the fame which has accrued to him through his successful treatment of the Dionne quintuplets. Film producers are not to be unduly censured if they esteem it profitable to invest hundreds of thousands of dollars in the future earning capacity of the five over-publicized infants.

Is there not, however, a question of values here, the kind of question which breeds skepticism in the intelligent young? A current news item refers to "the thousands of people who made unselfish offers of help to the babies in the early days." Those "unselfish offers" indicate a laudable condition of human sympathy. They also indicate the disproportionate generosity of an emotional mob.

Five infants receive wealth such as their parents never dreamed of possessing, simply as a reward for being born. "Neither the babies nor the rest of the Dionne family need worry about their normal requirements for the rest of their lives," announces the Ontario Minister of Welfare. Whether that is fundamentally beneficial remains to be proved. Everyone will agree that it is good to feel financially secure. No need to be apprehensive about the supply of the quintuplets.

Yet—there's a brave little youngster at the corner of Main Street, a lad of twelve, who trudged about in a pair of sneakers in the middle of winter, running errands and shoveling snow after school hours, who would like to go to college some day, but probably won't be able to finish high school. A child with an intellect, his teachers say, a child who should have an opportunity. His mother is a widow, and he has two younger sisters.

There's another child on Main Street—a girl of seven, delicate-featured, with a far too solemn expression in her gray eyes. Her parents are educated, but they are "on relief," and it's very cold when there's no fuel to light the kitchen stove. The last time it was lighted the mother made all the flour they had into doughnuts, which the little girl hawked around the neighborhood.

Sometimes the little boy and the little girl wonder why no "unselfish offers" from a sentimental public come showering down on them. It was a mistake to come singly. They should have come in fives.—Christian Science Monitor.

A Valuable Collection

Stamps Belonging To Late King George Worth Small Fortune

King Edward has directed that there should be no relaxation on the part of Sir Edward Bacon, curator of King George's stamp collection, in maintaining the standard of the wonderful collection King George built up, states the London Daily Sketch. From the point of view of Empire examples, it has not a parallel. It was a hobby in which King George found much pleasure and wherever he went for a protracted stay—at Balmoral, Sandringham or Windsor—books of his stamps went too. The Royal hobby was known all over the world, and many additions to the collection were due to the thoughtfulness of fellow collectors in other countries. As an example, when the day and night air mail service across the United States was opened, R. H. Willcox, head of the post-office division of the Customs House, himself a stamp collector, thought of the King, and sent a letter by the first mail for his Majesty. The value of the Royal collection is stated to be several thousand pounds.

Vegetable Duty

The department of national revenue has announced the fixed valuation for duty purposes on cabbage and cauliflower is now also applicable to Manitoba, Saskatchewan, Alberta and British Columbia.

The Strong Man: "I developed these muscles working in a boiler factory."

Innocent Flapper: "Oh, you great big wonderful man! What do you boil?"

for BITES

Insect, snake, or animal . . . the best treatment is plenty of Minard's at once. It soothes, heals and cures. Draws out the poison!

Little Helps For This Week

Turn ye to the stronghold, ye prisoners of hope. Zech. 9:12.

O power to do; O baffled will; O prayer and action, ye art one. Who may not strive may yet fulfill. The harder task of standing still, And good but wished with God is done.

That God has circumscribed our life may add a peculiar element of trial, but often it defines our way and cuts off many tempting possibilities that perplex the free and strong; while it leaves intact the whole body of spiritual reality "that if we know these things, happy are we if we do them." We know that God orders the lot, and to meet it with the energies it requires, and permits neither more or less, to fill it at every available point with the light and action of an earnest mind even if this action be narrowed, is what in that condition we have to do.

No Necessity For Speeding

Time Gained Is Usually Not Worth Thinking About

There is no necessity for people to be rushing about the province at 50 miles and more per hour. In Great Britain the Pedestrians' Association, has set a flinty face against speeding, and is clamoring for a country-wide speed limit.

Most of the road accidents there are here are due to speeding, and the association examined the circumstances of a large number of accidents due to this cause. It found that the time sought to be gained was usually a matter of a few seconds. We in Manitoba can be equally certain that 90 per cent of the speeding on our highways lacks any legitimate excuse. — Winnipeg Tribune.

Used On Emergency Issue

Head Of Baden-Powell Once Appeared On Postage Stamp

Lord Baden-Powell, now in his 80th year, has one claim to fame which most of his Boy Scouts don't know about, says London Answers. He is the only living Englishman not of royal blood whose portrait has appeared on a postage stamp. It was during the siege of Mafeking. All the stamps had been used and no portrait of Queen Victoria was available from which new ones could be prepared. So, without consulting "B.P." an emergency issue was made on which his head had been reproduced.

Knew Human Nature

Disraeli Had Method Of Greeting Followers In House

Disraeli confessed that, although he was always forgetting their faces and never remembering their names, he had no difficulty in being pleasant to his followers in the House. "When I meet anybody in the lobby whom I don't know from Adam, and I see he expects me to know who he is, I take him warmly by the hand, look straight into his eyes, and say: 'And how is the old complaint?' I have never known it to fail."

Valuable Gold Nugget

A gold nugget weighing slightly more than five pounds—one of the largest, if not the largest ever found in the North Transvaal—is reported to have been found by a young prospector named J. J. Baker. The find was valued at \$2,500.

England is experimenting with a new variety of hops, which is expected to be especially suited for brewing stout.

LOCAL & GENERAL

Rev. and Mrs. J. R. Geeson left Saturday to spend a few days at Banff.

Mr. and Mrs. H. Hawkes were Calgary visitors on Tuesday.

Mrs. Dr. J. L. Clarke is visiting at Edmonton with friends and relatives there.

Miss Bernice McGhee is spending the weekend with friends at Sylvan Lake.

Buy your Work Shirts and Overalls from T. E. Scott and GET THE BEST.

Mr. Al. Thomas is spending his vacation at his home in the Rimley district.

Mr. and Mrs. Jack Pearson of Bashaw were weekend guests of Mr. and Mrs. G. H. Liesemer.

Mr. and Mrs. W. J. Scheidt and Mr. John Bogner were Calgary visitors on Tuesday.

Mr. and Mrs. Ed. Klink and girls, with Miss Marion Levagood, returned from Banff on Sunday after a four day holiday.

Mrs Harold Clemens and daughter Jean of Edmonton are visiting at the home of Mr. and Mrs. M. B. Clemens.

Men's and Boys' Scampers. Our Regular \$2.25 Line to Clear at \$1.75. Our Regular \$2.00 Line for \$1.50—T. E. Scott.

Mr. and Mrs. Nyle Hunsperger were visitors at Red Deer last week. They report berry picking to be very good.

Aylmer McMow has accepted a position as projectionist with W. H. B. Sharp and is now making his home at Calgary.

Mr. J. H. Hahn, who has been staying with his daughter, Mrs. W. Keith, and family of Sylvan Lake, is in town this week.

The Crystal Dairy Cup for Grade Dairy Herd in the Didsbury Exhibition, arrived Wednesday morning. Also a miniature cup for the winner.

Tom Johnson returned Saturday from his trip to eastern Canada and the States. Tom is sporting a new Oldsmobile coupe and reports a good trip.

Two Tents for Rent; apply to J. V. Berscht.

The Misses Elizabeth Austin, Florence Chamberlin, Dorothy Sinclair and Dorothy and Gladys Geeson are attending the C.G.I.T. camp at Kasota Beech this week.

Boys Shirts, sizes 12 to 14; Regular price 85 cents; to Clear at 55.—T. E. Scott

Mr. and Mrs. J. Boorman and family, with Miss Elsie Goertz and Miss Elsie Stock of Olds left last Sunday for Gull Lake where they will spend their vacation.

We are pleased to report that Mrs. M. B. Clemens, who recently injured a knee when she fell at her home, is improving very nicely and can now walk a little.

The Didsbury branch of the Canadian Legion will hold their annual Memorial service at the Cenotaph on Sunday, August 2, at 4 p.m. All returned men are asked to meet in the Hall at 3:30. Rev. Norman Whitmore will have charge of the service.

Information would be gratefully received by Mrs. J. H. Lowrie, or any of the members of the St. Cyprian's W.A., as to the whereabouts of 94 cups, property of the W.A., which were left at the Leusler Block following the Christmas Sale.

A Reunion of the Gale Family took place at the home of Mr. and Mrs. Charlie Gale on Sunday, July 5th, when a bounteous picnic dinner was served on the lawn under the shade of the trees, to about 60 relatives and friends. An enjoyable time was had with singing, instrumental music, snapshot taking, and a real old visit. Lack of space prevents us from publishing the names of the large number of guests present.

Try a Pair of Our \$2.25 Work Shoes. They are Extra Good Value —T. E. Scott.

Didsbury, Alberta.

Mountain View Notes

Members and friends of the local W.I. assembled at the Hall on Thursday last and celebrated in honor of the Grandmothers of the Institute.

Following the business session, Mrs. Bennie StClair welcomed them, and all the members were pleased to have Mrs. Henry Atkinson with them for a short time at the meeting. She was presented with two beautiful bouquets of flowers. The ticket for the Grocery basket was drawn by Master StClair and was won by Mrs. Reid of Cremona. Singing was enjoyed by the members and a recitation by Miss Margaret Moseley who promises to be a good elocutionist, having won second place in the recent dramatic festival at Olds. The next meeting will be held in August. In spite of the dry season, everyone was cheerful, and a delicious luncheon was served, after which all dispersed to face again the stern realities of life

Football Game Saturday at 7:30 p.m. on the Town Diamond, Madaden at Didsbury in a Rosabud League encounter. Come and give your good support.

A. Melville Anderson, optometrist and sight specialist, will make his regular visit to the Rosebud Hotel on Monday July 27. Eyes examined and glass fitted.

Mr. and Mrs. Harold G. Reiber and daughter, Marguerite, of Long Beach, California are visiting with the former's parents, Mr. and Mrs. H. M. Reiber,

Didsbury U.F.A. and U.F.W.A. Constituency Convention will be held at the home of Mr. & Mrs. H. W. Wood, 3 miles East of Carstairs, on Thursday July 30 at 1 p.m. Basket lunch at noon. The following have been asked to speak: E. P. Foster, M.L.A., Alfred Speakman, A. B. Claypool and Norman S. Clarke. Everyone welcome.

Piano Tuning DeLuxe; Gavin Spence and W. H. Norton will be in town within a few days. Leave orders at Pioneer Office.
